MEDICAL EXAMINATION REPORT

Employee ID : 29108543
Department : quality NT
Medical History : A patient history is a comprehensive record of a person's health, including details about their current and past illnesses, medications, allergies, family history, and social factors

VITALS

Parameter	Reading	Normal Range
Height	6.5 cms	
Weight	58 kgs	
BMI	13727.81 kg/m ²	18.5 - 24.9
Blood Pressure	80/120 mmHg	120/80
Pulse Rate	95% bpm	60 - 100

MISCELLANEOUS

E.C.G : ECG notes refer to the interpretation of an electrocardiogram, a non-invasive test that records the heart's electrical activity using electrodes placed on the body

Spirometry : a group of tests that measure how well your lungs are working by assessing lung volume, capacity, and airflow rates

X-Ray : No significant finding in the lungs or mediastinum.

Audiometry : focus on the assessment of hearing acuity, including the degree, type, and configuration of any hearing loss through a series of tests performed with an

audiometer

OPHTHALMOLOGY REPORT

Test	Left Eye	Right Eye
Distant Vision	6/9	5/9
Near Vision	2/9	3/7
Colour Vision	8/9	7/9
Ocular Movement	3/9	4/9

Patient Complaints:

An eye physical examination is a comprehensive test to check vision and the overall health of your eyes

Remarks:

An eye physical examination is a comprehensive test to check vision and the overall health of your eyes

This spectacle prescription is valid for correction, only for three months from the date of consultation.

Lab Investigations : Enclosed

Impression : Reports within Normal Limits.

The above candidate was examined and found Medically Fit for the Job.

X-RAY CHEST PA VIEW

The cardiac size and configuration are within normal limits.

The lung fields are clear. The broncho-vascular markings are normal.

The costo- and cardio-phrenic angles are free.

Both domes of the diaphragm are normal.

No abnormality is seen in the bones and soft tissues of the chest wall.

The visualized abdominal structures appear normal.

No significant finding in the lungs or mediastinum.

IMPRESSION:

No significant finding in the lungs or mediastinum.
